[Hiring Manager Name]
[Company Name]
[Company Address]

Dear [Hiring Manager Name / Hiring Team],

I am writing to express my interest in the [Position Title] role at [Company Name]. I am a Computer Science student at Boise State University with a Cybersecurity Emphasis, currently working as a Cybersecurity Resiliency Intern at St. Luke's Health System, and I am eager to bring my technical skills and hands-on security experience to your team.

In my current internship, I support cybersecurity preparedness, disaster recovery, and downtime readiness across a large healthcare environment. I have developed and distributed over 1,000 downtime playbooks and charts, updated 300+ emergency communication phones, and built monthly phishing simulation reports that help the organization track and improve employee security awareness. These experiences have sharpened both my attention to detail and my ability to communicate security concepts clearly to non-technical audiences.

Outside of my internship, I have built independent projects that reflect my interest in security and systems-level problem solving, including a Java application that parses and analyzes 194,000+ OpenSSH server log entries using a custom disk-based B-Tree to identify authentication attack patterns, and a secure password vault built with proper password hashing, salting, and input validation. These projects, along with coursework in programming, system design, and security frameworks, have given me a strong technical foundation in Java, Python, SQL, and Linux-based tools.

A former supervisor who oversaw my work described me as an intern who consistently exceeded expectations, took ownership of projects with minimal direction, and delivered high-quality work on time or ahead of schedule. I take that same initiative and reliability into every team I join, whether I am leading an effort or supporting a teammate, and I am a quick learner who adapts well to new tools and fast-paced environments.

I would welcome the opportunity to bring this combination of technical skill, initiative, and dependability to [Company Name]. Thank you for your time and consideration, I have attached my resume for further detail and would be glad to discuss how I can contribute to your team.

Sincerely,

Jacob Smith
